Call +352 47 93 11 1 for more information.

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Société Générale Investment Solutions (Europe) in relation to this Key Information Document.

The date of production of this KID is 02 April 2026.

WHAT IS THIS PRODUCT?**Type:** This product is a share of a Sub-Fund of SG IS Fund**Term:** The Sub-Fund is managed with a maturity set at 31 December 2031. The liquidation of the Sub-Fund may take place a few weeks prior to this maturity date. The Board of Directors will provide Shareholders with written communication ahead of the liquidation to remind them of the effective date of this event. The maturity date may be extended if the Board of Directors considers this to be in the best interests of the Shareholders, notably to ensure smooth liquidity. Shareholders will be informed of such decision and will have the option to request the redemption of their Shares free of charge.**Objective and investment policy:** The investment objective of the Sub-Fund SG IS Fund – SG Credit Millesime 2031 is to achieve steady returns over the pre-defined investment horizon, by investing in bonds that generate environmental benefits and whose selected issuers follow good governance and social practices.

To achieve this objective, the Sub-Fund will invest principally in a selection of bonds issued by corporate issuers. The majority of the bonds held in the portfolio will have a final maturity date before 30 June 2031. Securities having a maturity date before 2031 will be reinvested in securities complying with the investment restrictions. From the 1st January 2030, the assets will be reinvested in Money markets instruments. The Sub-Fund's investment strategy is to manage, on a discretionary basis, a diversified portfolio of debt securities among which euro denominated bonds, green, social and sustainable bonds, UCITS, UCIs and UCITS ETFs. The strategy is not limited to a "buy and hold" investment strategy, the Investment Manager may proceed to arbitrage operations if new market opportunities arise or if there is an increase in the risk of default at maturity for one of the issuers in the portfolio or in case of degradation of ESG criteria. The Sub-Fund will maintain a diversification in terms of geography, sectors and issuers.

SFDR Category: Article 8**Benchmark:** The Sub-Fund is actively managed. The following indices are used as a universe from which to select securities: BofA Euro Corporate (ER00) Index and BofA Euro High Yield BB (HE10 Index). The index ICE BofA 3-5 Year Euro Corporate (ER02 Index) may be used for performance comparison. This benchmark is not intended to be consistent with the sustainable investment objective of the Sub-Fund, which the Investment Manager aims to achieve by applying the sustainable investment process described above.**Income:** Accumulation share class.**Investment horizon:** The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years or until 31/12/2031.**Currency:** Your shares will be denominated in EUR, which is the Fund's base currency.**Processing and redemption orders:** Subscription and redemption orders must be received by the transfer agent before 5 p.m. (Luxembourg time) on Friday. The net asset value is calculated on a weekly basis on the Tuesday of each week or, if this day is not a business day as defined in the general part of the prospectus, on the next business day.**Depositary / Transfer agent:** Société Générale Luxembourg**Intended Investor:** This share class is intended for all investors. The fund is dedicated to investors who have neither financial expertise nor any specific knowledge to understand the Sub-Fund but nevertheless may bear total capital loss. It is suitable for investor who seeks growth of capital. Potential investors should have an investment horizon of at least 5 years.

WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

Risk indicator

The risk indicator assumes you keep the product until 31 December 2031.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as out of 7, which is PRIIP_S4_SRI_ElementBValueText risk class. This rates the potential losses from future performance at a low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund prospectus.

Performance Scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

Recommended Holding Period: 5 years

Investment = \$ 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	-	-
	Average return each year	-%	-%
Unfavourable	What you might get back after costs	-	-
	Average return each year	-%	-%
Moderate	What you might get back after costs	-	-
	Average return each year	-%	-%
Favourable	What you might get back after costs	-	-
	Average return each year	-%	-%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: February 2025 and March 2026

Moderate Scenario: December 2017 and December 2022

Favourable Scenario: October 2020 and October 2025

WHAT HAPPENS IF Société Générale Investment Solutions (Europe) IS UNABLE TO PAY OUT?

The Company is not required to make any payment to you in respect of your investment. If the Company was liquidated, you would be entitled to receive a distribution equal to your share of the Company's assets, after payment of all of its creditors. The Company has no obligation to make any payment to you in respect of the ordinary shares. There is no compensation or guarantee scheme in place that applies to the Company and, if you invest in the Company, you should be prepared to assume the risk that you could lose all of your investment. As a shareholder in the Company, you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay you anything on its liquidation.

WHAT ARE THE COSTS?

The Reduction in Yield (“RIY”) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest \$10,000. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company’s share price performance. There is no direct link between the Company’s share price and the costs that it pays.

Table 1: Costs over time

	If you exit after 1 year	If you exit after 5 years
Total costs	\$670	\$-
Annual cost impact (*)	6.70% each year	-% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -% before costs and -% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
Entry costs	You will pay up to 5.00% of your investment amount when entering the product. This is the maximum you will pay; you could pay less.	\$500
Exit costs	The impact of the costs of exiting your investment when it matures. From the launch and until 31/12/2027: 0.75% - 2028: 0.50% - 2029: 0.25% - After 2030: 0%	\$75
Ongoing costs		
Management fees and other administrative or operating costs	0.95%. The impact of the costs that we take each year for managing your investment.	\$95
Portfolio transaction costs	0.10%. The costs of buying and selling the investments the Sub-Fund owns (estimate based on previous year’s costs).	\$10
Incidental costs		
Performance fees	There is no performance fee.	\$0

HOW LONG SHOULD I HOLD THIS PRODUCT AND CAN I TAKE MONEY OUT EARLY?

The recommended holding period is at least 5 years or until 31/12/2031. You can request to take out some or all of your money at any time.

HOW CAN I COMPLAIN?

If you have any complaints about the product or conduct of the product manufacturer, you may lodge your complaint by writing to the Company at Compliance Department 11, avenue Emile Reuter L-2420 Luxembourg or by email to sgiseurope-contact@socgen.com or via the Company’s website at <https://investmentsolutions.societegenerale.lu>. If you have a complaint about a person who is advising on, or selling, the product you should pursue that complaint with the relevant person in the first instance.

OTHER RELEVANT INFORMATION

Depending on how you buy and sell these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary. Further documentation, including the Company’s annual and semi-annual reports and regulatory disclosures, is available on the Company’s website at <https://investmentsolutions.societegenerale.lu>.
