SG IS Fund - EURO HIGH YIELD

A sub-fund of SG IS Fund

Class Institutional EUR (IE) - LU0979136503

SG IS Fund is authorised in Luxembourg and is submitted to the supervision of the Luxembourg financial authority, Commission de Surveillance du Secteur Financier (CSSF).

Management company: Société Générale Investment Solutions (Europe)

Objectives and Investment Policy

Objectives

The Sub-Fund seeks to achieve performance through investments in diversified portfolio of debt instruments on issuers with a strong ESG (Environmental Social and Governance) profile, principally denominated in Euro. The Sub-Fund aims at meeting the long-term challenges of sustainable development while delivering financial performance by the combination of financial and extra-financial criteria, integrating ESG criteria.

Investment policy

The Sub-Fund will invest in a diversified portfolio consisting primarily of high yield debt securities issued by governments, corporations or public institutions, mainly denominated in Euro. High Yield encompasses bonds rated BB+ and below by Standard & Poor's or equivalent to BB+ and below in the opinion of the investment manager.

The Sub-Fund may invest in securities rated at least B- at the time of their investment and in securities which are not rated if they are considered to be equivalent in risk to at least a B- rated company in the opinion of the investment manager at the time of investment.

If the rating on a security held by the Sub-Fund declines (including below a B-), or if the security goes into default, the Sub-Fund will consider such matters in its evaluation of the merits of retaining the security in its portfolio, but will not be obligated to dispose of the security as long as it does not exceed 10% of the Sub-Fund's net assets.

The average rating of the portfolio will be maintained above B-.

The Sub-Fund will actively manage duration and yield curve, as well as securities selection and diversification. The Sub-Fund will also seek to minimize the average default risk of the portfolio based on an analysis of the various risk factors inherent in bonds.

The portfolio construction specifically aims at on a best effort basis:- Maximizing the overall ESG rating by selecting best in class issuers taking into consideration the risk return approach and the overall strategy of the fixed income committee, - Favoring issuers with improving ESG rating

The Sub-Fund will try to optimize its overall carbon footprint by monitoring its overall CO2 carbon emission. The overall sustainable impact of the Sub-Fund can be improved by the use of Green Bonds.

Sustainable investment policy

The Sub-Fund promotes environmental and/or social characteristics within the meaning article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector. The initial investment universe is composed of securities included in the following indices:

- ICE BofA Euro High Yield Index, which represents Euro denominated High Yield bonds;
- ICE BofA US High Yield Index, which represents US dollar denominated High Yield bonds ;
- ICE BofA Contingent Capital Index, which represents Additional Tier 1 bonds;
- ICE BofA Euro Corporate Index, which represents Euro denominated Corporate Investment Grade debt securities.

The Investment Manager addresses ESG factors throughout the investment process, including research, company engagement and portfolio construction. The IM incorporates i) an exclusion policy completed

by ii) an ESG Integration policy. This two-fold SRI approach will lead to exclude at least 20% of the initial investment universe.

ii) Exclusion policy

In accordance with the Management Company's investment policy, the Sub-Fund excludes of the investment universe companies that have significantly and repeatedly transgressed one of the 10 United Nations Global Compact principles, or having controversial activities such as thermal coal, chemical weapons etc., or being involved in one or more recent very severe controversies under the MSCI nomenclature (red flag).

With regards to the portfolio construction, the portfolio management team employs norms and value-based exclusions as well. Examples of the exclusions (but not limited to them) are controversial weapons, gambling, adult entertainment, tobacco and thermal coal which is driven by revenue thresholds.

iii) ESG Integration policy

The Sub-Fund follows a Best-in-Class approach by investing in issuers whose ESG rating is greater than or equal to BB (leading and average rating) on a scale of AAA to CCC (CCC being the worst) according to the MSCI ESG rating system.

For issuers not covered by MSCI, the Sub-Fund employs an in-house ESG process, based on negative/exclusion, ESG criteria screening/ranking and norm-based screening.

Benchmark

The Sub-Fund is actively managed with reference to the following composite benchmark composed of: ICE BofA Euro High Yield Index, ICE BofA US High Yield Index, ICE BofA Contingent Capital Index, ICE BofA Euro Corporate Index. The benchmark is used as a universe from which to select securities.

The benchmark is not intended to be consistent with the sustainable investment objective of the Sub-Fund, which the Investment Manager aims to achieve by applying the sustainable investment process described above.

---	---	---	---	---	---	---

The investment process begins with the defining of a risk budget, in terms of volatility in order to remain compliant with the risk profile of the Sub-Fund.

Why is this share class in this category?

The Sub-Fund is at present situated at the level 4 of the synthetic indicator of risk, due to investment in a variety of high-quality and medium-quality issuers, the majority of which will be intermediate term high yield corporate bonds.

Historical data, such as are used in calculating the synthetic indicator, may not be reliable indication of the future risk profile of the Sub-Fund.

The risk and reward category shown is not guaranteed to remain unchanged and that the categorisation of the Sub-Fund may shift over time. The lowest category does not mean a risk-free investment.

Investments may be subject to market fluctuations and the price and value of investments and the income derived from them can go down as well as up. Your capital may be at risk and you may not get back the amount you invest.

The Sub-Fund can be also exposed to the following risks which are not adequately taken into account by the indicators of risk above:

Counterparty Risk

Refers to the likelihood that an opposite party in a transaction will not fulfill their contractual obligations, such as the payment of principal or the other side of a trade.

Liquidity Risk

The markets in which the Fund invests might become less liquid meaning that the Fund is unable to deal at the most beneficial time and price.

Credit Risk

The issuer of a security in which the Fund has invested is unable to meet payments of principal or interest resulting in a loss for the Fund.

Operational Risk

Refers to a failure or delay in the system, processes and controls of the fund or its service providers which could lead to losses for the fund.

Market Risk

Refers to the possibility for an investor to experience losses due to the overall performance of the financial markets.
