Class Retail EUR (RE) - LU1115951946

SG IS Fund is authorised in Luxembourg and is submitted to the supervision of the Luxembourg financial authority, Commission de Surveillance du Secteur Financier (CSSF).

Management company: Société Générale Investment Solutions (Europe)

Objectives and Investment Policy

Objectives

The objective of the Sub-Fund is to deliver income and capital appreciation by investing in a diversified portfolio of debt securities denominated in Euro. The Sub-Fund aims at meeting the long-term challenges of sustainable development while delivering financial performance by the combination of financial and extra-financial criteria, integrating environmental, social and governance criteria.

Investment policy

To achieve its objective, the Sub-Fund will invest in debt instruments among which fixed income bonds, floating rate debt instruments, commercial paper, certificates of deposit, UCITS, UCIs and UCITS ETFs. At least 90% of these debt instruments will be issued by corporate, governments, or public institutions denominated in Euro and rated Investment Grade. The debt instruments will be made up of the following securities:

- debt instruments issued by corporate, governments, or public institutions principally rated Investment Grade. If the rating of a security held by the Sub-Fund declines, or if the security goes into default, the Sub-Fund will dispose of the security.
- non rated debt instruments, but considered to be equivalent in risk to at least a BBB- rated company
- UCITS, UCIs and UCITS ETFs (up to 10% of the assets)

The Sub-Fund will maintain a weighted average effective maturity below 3 years and average modified duration below 2.

Sustainable investment policy

The Sub-fund promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector, by taking into account ESG criteria in its investment process.

The Investment Manager addresses ESG factors throughout the investment process by incorporating i) an exclusion policy completed by ii) an ESG Integration policy.

i) Exclusion policy

The Sub-Fund excludes of the investment universe companies that have

significantly and repeatedly transgressed one of the 10 United Nations Global Compact principles, or having controversial activities such as thermal coal, chemical weapons etc., or being involved in one or more recent very severe controversies under the MSCI nomenclature (red flag). With regards to the portfolio construction, the portfolio management team employs norms and value-based exclusions as well.

ii) ESG Integration policy

The Sub-Fund adopts a rating upgrade approach. To carry out this analysis, the Investment Manager uses data provided by external ESG providers, including MSCI, as well as proprietary ESG models. The Sub-Fund follows a Best-in-Class approach by investing in issuers whose ESG rating is greater than or equal to BB (leading and average rating) on a scale of AAA to CCC (CCC being the worst) according to the MSCI ESG rating system. For issuers not covered by MSCI, the Sub-Fund employs an in-house ESG process, based on negative/exclusion, ESG criteria screening/ranking and norm-based screening.
