The date of production of this KID is 12 February 2026.

---

## WHAT IS THIS PRODUCT?

**Type:** This product is a share of a Sub-Fund of SG IS Fund

**Term:** The Sub-Fund is of unlimited duration and may continue to operate indefinitely.

**Objective and investment policy:** The objective of the Sub-Fund is to deliver income and capital appreciation by investing in a diversified portfolio of debt securities denominated in Euro. The Sub-Fund aims at meeting the long-term challenges of sustainable development while delivering financial performance by the combination of financial and extra-financial criteria, integrating environmental, social and governance criteria (ESG).

To achieve its objective, the Sub-Fund will invest in debt instruments among which fixed income bonds, floating rate debt instruments, commercial paper, certificates of deposit, UCITS, UCIs and UCITS ETFs. At least 90% of these debt instruments will be issued by corporate, governments, or public institutions denominated in Euro and rated Investment Grade.

The debt instruments will be made up of the following securities:

- debt instruments issued by corporate, governments, or public institutions principally rated Investment Grade (rating BBB- or higher delivered by Standard and Poor's ("S&P") or equivalent to BBB- or higher in the opinion of the Investment Manager). If the rating of a security held by the Sub-Fund declines (including below a BBB- rating by S&P), or if the security goes into default, the Sub-Fund will dispose of the security.
- non rated debt instruments, but considered to be equivalent in risk to at least a BBB- rated company by Standard & Poor's in the opinion of the Investment Manager at the time of investment.
- UCITS, UCIs and UCITS ETFs (up to 10% of the assets)

The Sub-Fund will maintain a weighted average effective maturity below 3 years and average modified duration below 2.

The Sub-Fund will not invest in Contingent convertible capital instruments (CoCos), Distressed or Default Securities.

Currency risk resulting from investments in non-EUR denominated debt securities might be hedged against the EUR.

**SFDR Category:** Article 8. At each step of the management process, the Investment Manager exploits both financial analysis and socially responsible investing approach. The Investment Manager addresses ESG factors throughout the investment process, including research, company engagement and portfolio construction. The Investment Manager incorporates an exclusion policy completed by an ESG Integration policy. This two-fold SRI approach will lead to exclude at least 20% of the initial investment universe.

**Benchmark:** The Sub-Fund is actively managed without reference to a benchmark. For the purpose of performance comparison only, the return of the Sub-Fund will be compared to the following composite benchmark: 80% ICE BofA-AML Euro Corpo 1-3 ans (ER01 Index) and 20% ESTR Compounded Index (ESTCINDEX Index).

**Income:** Accumulation share class, the dividend is reinvested.

**Investment horizon:** The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 3 years.

**Currency:** Your shares will be denominated in EUR, the Fund's base currency.

**Processing and redemption orders:** You can buy and sell your shares daily.

**Depositary:** Société Générale Luxembourg

**Intended Investor:** This share class is intended for professional investors and eligible counterparties. The fund is dedicated to investors who seeks growth of capital and may bear total capital loss. Potential investors should have an investment horizon of at least 3 years.

## WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

### Risk indicator

**The risk indicator assumes you keep the product for 3 year(s). Selling before the end of this period significantly increases the risk of lower investment returns or a loss.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund prospectus.

### Performance Scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

#### Recommended Holding Period: 3 years

Investment = € 10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>€9,040</b>	<b>€8,840</b>
	Average return each year	-9.6%	-4.0%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>€9,060</b>	<b>€8,840</b>
	Average return each year	-9.4%	-4.0%
<b>Moderate</b>	<b>What you might get back after costs</b>	<b>€9,550</b>	<b>€9,730</b>
	Average return each year	-4.5%	-0.9%
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>€10,300</b>	<b>€10,790</b>
	Average return each year	3.0%	2.6%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: March 2017 and April 2020

Moderate Scenario: September 2020 and September 2023

Favourable Scenario: October 2022 and October 2025

## WHAT HAPPENS IF Société Générale Investment Solutions (Europe) IS UNABLE TO PAY OUT?

The Company is not required to make any payment to you in respect of your investment. If the Company was liquidated, you would be entitled to receive a distribution equal to your share of the Company's assets, after payment of all of its creditors. The Company has no obligation to make any payment to you in respect of the ordinary shares. There is no compensation or guarantee scheme in place that applies to the Company and, if you invest in the Company, you should be prepared to assume the risk that you could lose all of your investment. As a shareholder in the Company, you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay you anything on its liquidation.

## WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest €10,000. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company's share price performance. There is no direct link between the Company's share price and the costs that it pays.

**Table 1: Costs over time**

	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	<b>€574</b>	<b>€754</b>
<b>Annual cost impact (*)</b>	5.74% each year	2.50% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.6% before costs and -0.9% after costs.

**Table 2: Composition of costs**

		If you exit after 1 year
<b>One-off costs</b>		
Entry costs	You will pay up to 5.00% of your investment amount when entering the product. This is the maximum you will pay; you could pay less.	€500
Exit costs	0.00%. The impact of the costs of exiting your investment when it matures.	€0
<b>Ongoing costs</b>		
Management fees and other administrative or operating costs	0.65%. The impact of the costs that we take each year for managing your investment.	€65
Portfolio transaction costs	0.08%. The costs of buying and selling the investments the Sub-Fund owns (estimate based on previous year's costs).	€8
<b>Incidental costs</b>		
Performance fees	There is no performance fee.	€0

## HOW LONG SHOULD I HOLD THIS PRODUCT AND CAN I TAKE MONEY OUT EARLY?

The recommended holding period is at least 3 years. You can request to take out some or all of your money at any time.

## HOW CAN I COMPLAIN?

If you have any complaints about the product or conduct of the product manufacturer, you may lodge your complaint by writing to the Company at Compliance Department 11, avenue Emile Reuter L-2420 Luxembourg or by email to [sgiseurope-contact@socgen.com](mailto:sgiseurope-contact@socgen.com) or via the Company's website at <https://investmentsolutions.societegenerale.lu>. If you have a complaint about a person who is advising on, or selling, the product you should pursue that complaint with the relevant person in the first instance.

## OTHER RELEVANT INFORMATION

Depending on how you buy and sell these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary. Further documentation, including the Company's annual and semi-annual reports and regulatory disclosures, is available on the Company's website at <https://investmentsolutions.societegenerale.lu>.
