The date of production of this KID is 02 April 2026.

---

## WHAT IS THIS PRODUCT?

**Type:** This product is a share of a Sub-Fund of SG IS Fund

**Term:** The Sub-Fund is of unlimited duration and may continue to operate indefinitely.

**Objective and investment policy:** The Sub-Fund seeks to provide long-term capital appreciation over a cycle of 5 years, primarily through investments in a portfolio of European Equities. The Sub-Fund seeks to address long-term sustainable development challenges while achieving strong financial performance by integrating both financial and extra-financial criteria, including environmental, social, and governance (ESG) factors.

**Investment policy:** In order to achieve its investment objective, the Sub-Fund will invest at least:

- 80% of its assets in equity securities of companies domiciled in or exercising the predominant part of their economic activities in Europe.

- 75% of its net assets in equity securities issued by companies established in a member state of the European Union or the European Economic Area.

The Sub-Fund will principally invest in European large cap equities. The Sub-Fund aims to generate returns through a stock selection process that integrates both quantitative screening criteria and fundamental analysis. The fundamental analysis evaluates each company's positioning based on various factors, including management quality, long-term strategy, technological advancement, and growth potential. Simultaneously, a quantitative analysis is performed using traditional financial ratios. The Sub-Fund may also hold on an ancillary basis cash equivalent including certifications of deposits and short term deposits.

**SFDR Category:** Article 8. The Sub-Fund applies exclusion and ESG integration policies. The initial investment universe is composed of securities included in the MSCI Europe net return EUR Index and the MSCI Europe Small Cap Index.

- Exclusion policy: The Sub-Fund excludes from the investment universe companies related to the following sectors (exclusions mainly driven by revenue thresholds): Prohibited and controversial weapons within the meaning of the Ottawa (1999) and Oslo (2008) conventions, Thermal coal, Oil and gas, Tobacco and Palm Oil. In addition, companies with a very severe controversy flag (red) according to MSCI ESG Research are also excluded from the Sub-Fund's investment universe.

- ESG Integration policy: The Sub-Fund adopts an ESG rating improvement approach compared to its initial investment universe. To carry out this analysis, the Investment Manager uses data provided by external ESG providers, including MSCI, as well as proprietary ESG models. The Sub-Fund follows a Best-in-Class approach by investing in issuers whose ESG rating is greater than or equal to BB (leading and average rating) on a scale of AAA to CCC (CCC being the worst) according to the MSCI ESG rating system. The Sub-Fund's weighted average ESG rating aims to be higher than the composite rating of the following two universes forming the initial investment universe: 75% of the universe of securities from the MSCI Europe net return EUR Index and 25% of the universe of securities from the MSCI Europe Small Cap Index.

**Income:** Accumulation share classes, the dividend is reinvested.

**Investment horizon:** The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

**Currency:** Your shares will be denominated in Euro, the Fund's base currency.

**Processing and redemption orders:** You can buy and sell your shares daily.

**Depositary:** Société Générale Luxembourg

**Intended Investor:** This share class is intended for professional investors and eligible counterparties. The fund is dedicated to investors who seek growth of capital and may bear total capital loss. Potential investors should have an investment horizon of at least 5 years.

## WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

### Risk indicator

Lower Risk ← → Higher Risk

**The risk indicator assumes you keep the product for 5 year(s). Selling before the end of this period significantly increases the risk of lower investment returns or a loss.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund prospectus.

### Performance Scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

#### Recommended Holding Period: 5 years

Investment = € 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>€4,040</b>	<b>€3,670</b>
	Average return each year	-59.6%	-18.2%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>€7,790</b>	<b>€9,010</b>
	Average return each year	-22.2%	-2.1%
<b>Moderate</b>	<b>What you might get back after costs</b>	<b>€10,080</b>	<b>€11,670</b>
	Average return each year	0.8%	3.1%
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>€12,050</b>	<b>€14,410</b>
	Average return each year	20.5%	7.6%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: September 2017 and October 2022

Moderate Scenario: January 2020 and January 2025

Favourable Scenario: January 2021 and January 2026

## WHAT HAPPENS IF Société Générale Investment Solutions (Europe) IS UNABLE TO PAY OUT?

The Company is not required to make any payment to you in respect of your investment. If the Company was liquidated, you would be entitled to receive a distribution equal to your share of the Company's assets, after payment of all of its creditors. The Company has no obligation to make any payment to you in respect of the ordinary shares. There is no compensation or guarantee scheme in place that applies to the Company and, if you invest in the Company, you should be prepared to assume the risk that you could lose all of your investment. As a shareholder in the Company, you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay you anything on its liquidation.

## WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest €10,000. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company's share price performance. There is no direct link between the Company's share price and the costs that it pays.

**Table 1: Costs over time**

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	<b>€675</b>	<b>€1,808</b>
<b>Annual cost impact (*)</b>	6.75% each year	3.02% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.1% before costs and 3.1% after costs.

**Table 2: Composition of costs**

		If you exit after 1 year
<b>One-off costs</b>		
Entry costs	You will pay up to 5.00% of your investment amount when entering the product. This is the maximum you will pay; you could pay less.	€500
Exit costs	0.00%. The impact of the costs of exiting your investment when it matures.	€0
<b>Ongoing costs</b>		
Management fees and other administrative or operating costs	1.58%. The impact of the costs that we take each year for managing your investment.	€158
Portfolio transaction costs	0.26%. The costs of buying and selling the investments the Sub-Fund owns (estimate based on previous year's costs).	€26
<b>Incidental costs</b>		
Performance fees	10% of the outperformance compared to MSCI Europe Net Return Index (M7EU)	€0

## HOW LONG SHOULD I HOLD THIS PRODUCT AND CAN I TAKE MONEY OUT EARLY?

The recommended holding period is at least 5 years. You can request to take out some or all of your money at any time.

## HOW CAN I COMPLAIN?

If you have any complaints about the product or conduct of the product manufacturer, you may lodge your complaint by writing to the Company at Compliance Department 11, avenue Emile Reuter L-2420 Luxembourg or by email to [sgiseurope-contact@socgen.com](mailto:sgiseurope-contact@socgen.com) or via the Company's website at <https://investmentsolutions.societegenerale.lu>. If you have a complaint about a person who is advising on, or selling, the product you should pursue that complaint with the relevant person in the first instance.

## OTHER RELEVANT INFORMATION

Depending on how you buy and sell these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary. Further documentation, including the Company's annual and semi-annual reports and regulatory disclosures, is available on the Company's website at <https://investmentsolutions.societegenerale.lu>.
