WHAT IS THIS PRODUCT?

Type: This product is a share of a Sub-Fund of SG IS Fund

Term: The Sub-Fund has a recommended holding period of 5 years.

Objective and investment policy: **Investment objective:** The investment objective of the fund is to provide mid-term growth to investors from a diversified portfolio of investments.

The portfolio will be actively managed, providing an active exposure to fixed income, equities and alternative investments, through mutual fund and direct holding investments picking. The overall risk of the fund is intended to be consistent with that of a balanced portfolio.

Investment policy: The Sub-Fund will primarily invest directly or indirectly in fixed income, floating rate securities, equities and alternatives funds compliant with UCITS rules. The Sub-Fund is also authorized to invest in structured products such as EMTN and certificates qualified as transferable securities. There will be no derivatives within the above-mentioned certificates. The Sub-Fund will invest mainly in developed markets and in some liquid emerging markets included within the MSCI Emerging markets benchmark.

SFDR Category: Article 8. The Sub-Fund integrates ESG criteria within mutual fund selection and portfolio management investment decisions.

Benchmark: The Sub-Fund is actively managed without reference to a benchmark. For the purpose of performance comparison only, the return of the Sub-Fund will be compared to the following benchmarks: MSCI USA, MSCI Europe, MSCI Japan, MSCI Emerging Markets, Ice BofAML Euro Gov, Ice BofAML Euro Corp, Ice BofAML Euro HY, HFRU HF Composite, LBMA Gold Price.

Income: Accumulation share class, the dividend is reinvested.

Investment horizon: The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Currency: Your shares will be denominated in EUR, the Fund's base currency.

Processing and redemption orders: You can buy and sell your shares daily.

Depositary: Société Générale Luxembourg

Intended Investor: This share class is intended for professional investors and eligible counterparties. The fund is dedicated to investors who seeks growth of capital and may bear total capital loss. Potential investors should have an investment horizon of at least 5 years.

WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

Risk indicator

Lower Risk ← → Higher Risk

The risk indicator assumes you keep the product for 5 year(s). Selling before the end of this period significantly increases the risk of lower investment returns or a loss.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the

product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium low. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund prospectus.

Performance Scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

Recommended Holding Period: 5 years

Investment = € 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€7,260	€6,790
	Average return each year	-27.4%	-7.4%
Unfavourable	What you might get back after costs	€8,290	€8,560
	Average return each year	-17.1%	-3.1%
Moderate	What you might get back after costs	€9,740	€10,990
	Average return each year	-2.6%	1.9%
Favourable	What you might get back after costs	€11,710	€13,200
	Average return each year	17.1%	5.7%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: March 2015 and April 2020

Moderate Scenario: February 2017 and February 2022

Favourable Scenario: March 2020 and March 2025

WHAT HAPPENS IF Société Générale Investment Solutions (Europe) IS UNABLE TO PAY OUT?

The Company is not required to make any payment to you in respect of your investment. If the Company was liquidated, you would be entitled to receive a distribution equal to your share of the Company's assets, after payment of all of its creditors. The Company has no obligation to make any payment to you in respect of the ordinary shares. There is no compensation or guarantee scheme in place that applies to the Company and, if you invest in the Company, you should be prepared to assume the risk that you could lose all of your investment. As a shareholder in the Company, you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay you anything on its liquidation.

WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest €10,000. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company's share price performance. There is no direct link between the Company's share price and the costs that it pays.

Table 1: Costs over time

	If you exit after 1 year	If you exit after 5 years
Total costs	€680	€1,700
Annual cost impact (*)	6.7% each year	3.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9% before costs and 1.9% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
Entry costs	[@EPT03010_One_Off_Cost_Portfolio_Entry_Cost]%. The impact of the costs you pay when entering your investment. This is the most you will pay, you could pay less;	5.0%
Exit costs	The impact of the costs of exiting your investment when it matures.	0.0%
Ongoing costs		
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investment.	1.6%
Portfolio transaction costs	The costs of buying and selling the investments the Sub-Fund owns (estimate based on previous year's costs).	0.2%
Incidental costs		
Performance fees	There is no performance fee.	0.0%

HOW LONG SHOULD I HOLD THIS PRODUCT AND CAN I TAKE MONEY OUT EARLY?
