## WHAT IS THIS PRODUCT?

**Type:** This product is a share of a Sub-Fund of Moorea Fund

**Term:** The Sub-Fund has a recommended holding period of 5 years.

**Objective:** **Investment objective:** The Sub-Fund seeks to provide long term capital appreciation and generate a positive environmental impact through investments in shares issued by companies that operate in green eco-activities and develop solutions and businesses that actively contribute to the environmental transition. Green eco-activities include, but not limited to renewable energies, energy efficiencies, green mobility, green buildings, sustainable water and agriculture, circular economy.

**Investment policy:** In order to achieve this investment objective, the Sub-Fund will invest at least 90% of its assets in equities and equivalent securities of companies domiciled in or exercising their economic activities throughout the world (including Emerging Markets).

The Sub-Fund will invest at least two-thirds of its total assets in equities issued by companies located in developed countries and up to 20% of its net assets into emerging markets to ensure that Emerging Markets do not become an excessive part of the Sub-Fund risk. Are considered as emerging markets, countries included in the MSCI ACWI benchmark.

All the equities invested in portfolio will be researched and analysed from an ESG standpoint.

**SFDR Category:** Article 9. The Investment Manager adopts a holistic approach to sustainable investing and addresses ESG factors throughout the investment process, including research, company engagement and portfolio construction. The IM incorporates an exclusion policy complemented by the integration of environmental the criteria and an ESG policy and outcome.

**Benchmark:** The Sub-Fund is actively managed with reference to the following benchmark: MSCI ACWI. The benchmark is used both for performance comparison and as a universe from which to select securities. It is specified that the investment universe of the MSCI ACWI index is not binding on the Investment Manager as the latter can select, in addition to the investment universe of the MSCI ACWI index, 0 to 20 securities of companies out of the MSCI ACWI index.

**Income:** Accumulation share class, the dividend is reinvested.

**Investment horizon:** The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

**Currency:** Your shares will be denominated in EUR, the Fund's base currency.

**Processing and redemption orders:** You can buy and sell your shares daily.

**Depositary:** Société Générale Luxembourg

**Intended Investor:** This share class is intended for professional investors and eligible counterparties. The fund is dedicated to investors who seeks growth of capital and may bear total capital loss. Potential investors should have an investment horizon of at least 5 years.

## WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

### Risk indicator

**The risk indicator assumes you keep the product for 5 year(s). Selling before the end of this period significantly increases the risk of lower investment returns or a loss.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the

product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund prospectus.

## WHAT HAPPENS IF Société Générale Investment Solutions (Europe) IS UNABLE TO PAY OUT?

Société Générale Investment Solutions (Europe) is a management company licensed and supervised by the CSSF. Société Générale Investment Solutions (Europe) complies with organizational and operational rules, in particular as regards capital requirements. A separate pool of assets is invested and maintained for each Sub-Fund. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the management company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the management company or any delegated service provider were to fail or default.

## WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company's share price performance. There is no direct link between the Company's share price and the costs that it pays.

### Costs over time

|                               | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| <b>Total costs</b>            | <b>€750</b>              | <b>€2,670</b>             |
| <b>Annual cost impact (*)</b> | 7.5% each year           | 4.0% each year            |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.6% before costs and 5.6% after costs.

**Table 2: Composition of costs**

| <b>One-off costs</b>  |   | <b>If you exit after 1 year</b> |
|---|---|---------------------------------|
| Entry costs   | The impact of the costs you pay when entering your investment. This is the most you will pay, you could pay less; | 5.0%                            |
| Exit costs  | The impact of the costs of exiting your investment when it matures.   | 0.0%                            |
| <b>Ongoing costs</b>  |   |                                 |
| Management fees and other administrative or operating costs | The impact of the costs that we take each year for managing your investment.                                      | 1.8%                            |
| Portfolio transaction costs                                 | The costs of buying and selling the investments the Sub-Fund owns (estimate based on previous year's costs).      | 1.1%                            |
| <b>Incidental costs</b>                                     |   |                                 |
