WHAT IS THIS PRODUCT?

Type: This product is a share of a Sub-Fund of Talents UCITS Fund

Term: The duration of the Sub-Fund is unlimited.

Objective: The investment objective of the Sub-Fund is to provide long-term growth to investors from a diversified portfolio of investments. The portfolio will be actively managed, providing a dynamic exposure to equities and fixed income. The overall risk of the fund is intended to be consistent with that of a growth portfolio.

The Sub-Fund intends to achieve its objective by actively managing direct and indirect exposure to equities, fixed income securities, collective investment schemes, money market instruments and ancillary liquid assets.

The Sub-Fund may invest up to 100% of its net assets directly or indirectly (through collective investment scheme and structured products) in equities and equity-related securities.

The remaining assets are invested directly or indirectly in debt securities (including lower rated or non-investment grade securities) and Money Market instruments (up to 20% of the net assets). The debt instruments will be principally rated Investment Grade (rating BBB- or higher delivered by Standard and Poor's ("S&P") or equivalent to BBB- or higher in the opinion of the Investment Manager). It may also opportunistically invest in debt securities rated below Investment Grade with a rating of at least B- (up to 40% of the Sub-Fund's net assets). The Sub-Fund may invest in securities which are not rated by rating agencies if they are considered to be equivalent in risk to at least a B- rated company in the opinion of the investment manager at the time of investment (up to 15% of the Sub-Fund's net assets). The Sub-Fund invests in securities of issuers of any market capitalisation located anywhere in the world, including Emerging Markets (with a maximum of 10% of the assets of the Sub-Fund). Currency forward contracts, Futures and Options are allowed.

SFDR Category: Article 6

Benchmark: The Sub-Fund is actively managed without reference to a benchmark. For the purpose of performance comparison only, the return of the Sub-Fund will be compared to the following composite benchmark: 50% Eurostoxx 600 net Return, 30% S&P 500 and 20% ESTR Compounded Index.

Income: Accumulation share class, the dividend is reinvested.

Investment horizon: The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Currency: Your shares will be denominated in EUR, which is the Fund's base currency.

Processing and redemption orders: You can buy and sell your shares weekly. Subscription and redemption requests must be received on the business day before the valuation day before 12 p.m. (Luxembourg time). The minimum initial investment for this share class is EUR 250,000.

Depositary: Société Générale Luxembourg

Intended Investor: This share class is intended for all investors. The fund is dedicated to investors who have neither financial expertise nor any specific knowledge to understand the Sub-Fund but nevertheless may bear total capital loss. It is suitable for investor who seeks growth of capital. Potential investors should have an investment horizon of at least 5 years.

WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for 5 year(s). Selling before the end of this period significantly increases the risk of lower investment returns or a loss.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

Performance Scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are illustrations using the worst, average, and best performance of the product, which may include input from benchmark / proxy, over the last ten years. The figures are not an exact indicator, markets could develop very differently in the future. What you get will vary depending on how the market performs and how long you keep the investment/product.

Recommended Holding Period: 5 year(s)

Investment = € 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€6,570	€5,910
	Average return each year	-34.3%	-10.0%
Unfavourable	What you might get back after costs	€8,700	€10,230
	Average return each year	-13.0%	0.5%
Moderate	What you might get back after costs	€10,170	€11,800
	Average return each year	1.6%	3.4%
Favourable	What you might get back after costs	€12,130	€13,690
	Average return each year	21.3%	6.5%

The figures include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: January 2025 and March 2026

Moderate Scenario: October 2016 and October 2021

Favourable Scenario: March 2020 and March 2025

WHAT HAPPENS IF Société Générale Investment Solutions (Europe) IS UNABLE TO PAY OUT?

Société Générale Investment Solutions (Europe) is a management company licensed and supervised by the CSSF. Société Générale Investment Solutions (Europe) complies with organizational and operational rules, in particular as regards capital requirements. A separate pool of assets is invested and maintained for each Sub-Fund. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the management company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the management company or any delegated service provider were to fail or default.

WHAT ARE THE COSTS?

The Reduction in Yield (“RIY”) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company’s share price performance. There is no direct link between the Company’s share price and the costs that it pays.

Costs over time

	If you exit after 1 year	If you exit after 5 years
Total costs	€110	€671
Annual cost impact (*)	1.10% each year	1.15% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 3.4% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
Entry costs	You will pay up to 0.00% of your investment amount when entering the product. This is the maximum you will pay; you could pay less.	€0
Exit costs	0.00%. The impact of the costs of exiting your investment when it matures.	€0
Ongoing costs		
Management fees and other administrative or operating costs	0.83% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year.	€83
Portfolio transaction costs	0.27% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€27
Incidental costs		
Performance fees	There is no performance fee.	€0

HOW LONG SHOULD I HOLD THIS PRODUCT AND CAN I TAKE MONEY OUT EARLY?
